

## Applicant Portals

ApplyWeb Application Processing Services

The *ApplyWeb*® Applicant Portals are part of a complete set of advanced web-based tools for managing your entire admissions application process. With Applicant Portals – Checklist and Online Decision – your online applicants can check the status of their application materials and view and respond to your admission decisions all via the Internet. Each portal is fully branded to your campus and hosted by CollegeNET, which means there's no software for you to install or maintain.

### Applicant Portals Help You:

- Improve the admission application experience for your applicants
- Provide easy, anytime access to current application status
- Reduce administrative time responding to applicant inquiries
- Reduce or eliminate costs and delays associated with mailing decision letters and waiting for additional application materials to be submitted
- Reduce paper consumption
- Ensure applicant privacy via a personalized, secure web page

### With the Checklist Applicant Portal You Can:

- Give applicants an at-a-glance list of all the steps required to complete their application
- Provide applicants a comprehensive and automatically updated status report on all their online application materials, including letters of recommendation, transcripts and portfolios
- Enable applicants to send reminders to their recommenders or choose alternates
- Import SIS data, including receipt of mailed application materials, into Checklist
- Help applicants confirm they have completed all required application steps

### With the Online Decision Applicant Portal You Can:

- Provide applicants secure online access to your admissions decision
- Allow applicants to respond to your offer and submit their deposits online
- Create customized decision letters
- Safeguard against decision errors
