

**Build strong
relationships;
Grow your
support base**

The *Contribute.com*[®] online donation and registration management service is dedicated to helping your non-profit organization or alumni association build valuable relationships while saving time, money and resources. Contribute.com gives you the power to manage contributions, as well as member registrations and personalized communications, directly through your website.

We custom-build online forms to match the look and feel of your website, so you can link to them transparently. We make it easy and convenient for your web guests to register or contribute, and then we securely process each transaction for you and provide you the tools to send automatic payment acknowledgements as well as other targeted messages. There are no paper forms to process and no software to install or maintain.

With Contribute.com you can:

- Have customized online membership, contribution and event registration forms built to your specifications, branded to your organization's website and updated as your events or specifications change
- Specify the exact information you want to appear on your forms, rather than being confined to standardized blocks of text
- Offer your members and donors the convenience of real-time payment by credit card, debit card or electronic check
- Rely on a secure, reliable web environment for the collection and maintenance of donor and membership data
- Generate personalized billing with your organization's name on all credit card and bank receipts sent to your members and donors
- Identify trends and development opportunities with graphical reporting tools that help you analyze your contribution data and download it to your organization's fund raising management software
- Automate and personalize communications with constituents based on criteria you determine
- Receive unlimited expert support whenever you need it

Only Contribute.com offers you:

The most efficient and easy-to-use service you can buy

No other service allows you to accomplish more or provides you greater flexibility, including unlimited customized and changeable forms.

MetaForm technology

Our adaptable online forms allow you to change the form content with each new event or initiative you want it to support. You control the content while we provide payment processing, online data validation and easy access to the data collected.

Powerful, targeted communication tools

Our patented *Triggers*[®] and *E-Sponse*[®] communication technologies make it easy to send automated acknowledgements and reminders and cultivate valuable relationships with specific groups or individuals. With Triggers, you have complete control over which of your automated messages will be sent, who will receive them and when they will be sent. And you can reset your criteria with each message you send.

The strongest reputation to support your reputation

Contribute.com is a service of CollegeNET, Inc., one of higher education's most trusted and experienced providers of technical solutions since 1977. CollegeNET provides secure handling via the web of event scheduling and registrations, tuition processing, admissions processing, commencement services and course evaluation for over 1300 colleges and universities.

Unsurpassed support and service

Our service experts guide you through everything, from set-up and training to ongoing support. Our support staff is courteous, knowledgeable, professional and always available to you.

Guaranteed privacy

Contribute.com does not collect individual data for sale to third parties. Your donor and member data is exclusively yours.
