

# Hiring Works Better When People Can Be Seen and Heard

[STANDOUT.COM](http://STANDOUT.COM)

The *StandOut*® Recruitment Network connects your students directly to employers through the latest video and supercomputer technology. Leveraging the primary insight of job fairs and in-person interviews —that people who work together should first see and hear each other—StandOut strips off the blinders to establish real connections between students and employers. Rather than relying solely on proxy information like resumes and transcripts, StandOut conveys real information about a student’s engagement, enthusiasm, and ability to respond and articulate—human qualities that can’t be put on paper but that matter the most in any high-paying job.

## StandOut gives your students:

- Practice video interviews
- 24/7 secure video advising
- Direct interviews and connections with employers
- Interviews without appointment scheduling or traveling

## StandOut boosts student and institutional outcomes with:

- More satisfying careers
- Solid returns on the high investment in education
- Stronger alumni loyalty

## Enhance your students’ path to success!
