

Video Interviewing Revolution

StandOut® video interviewing delivers innovative new technology that maximizes efficiency and opportunity, and ensures excellent hiring decisions across your campus. StandOut frees up on-site interviewing time and enables consistency in questioning, side-by-side comparisons, and collaborative decision making. And it supports your efforts to provide broader access and fairness in hiring, for student workers and administrative staff.

Video Interviewing for On-Campus Hiring | Benefits

Saves Time & Resources

StandOut brings significant cost savings by simplifying administrative workflow and eliminating loss of time and expense due to missed interviews and rescheduling. In many cases it can eliminate in-person interviews all together. And hiring agents and supervisors can review interviews on their own schedules and from any location.

Find Top Candidates

StandOut video technology not only provides hiring agents direct interaction with a broader pool of candidates, it also helps them quickly identify key personal attributes such as self-confidence, communication skills, unique strengths, levels of engagement, and other desirable qualities that a resume or even a phone call often cannot reveal.

Increase Opportunity

StandOut allows every candidate to be seen and heard, regardless of their circumstances. It provides access and opportunity and supports diversity while allowing students to showcase their strengths. Collaborative questioning and reviewing ensures consistency across interviews, side-by-side comparisons, and fair decision making.
